

TECHNOLOGY, QUALITY, EFFICIENCY.

PEMEX has entrusted Roomdimensions with the remodelling of its Board Meeting Room in Mexico.

Roomdimensions was contracted, through its local partner, for the execution of the integral remodelling of the PEMEX Board Meeting Room in Mexico, delivering the first units of the **Kompas CRAE** multimedia consoles range in the Mexican market.

The scope of the project has been aimed at the renovation of the Board Meeting Room of the Poza Rica plant, equipping it with the best furniture solution for a technological environment.

KOMPAS Crae is a high added-value technical furniture range which is manufactured with high quality materials and allows a perfect organization of the equipment and structured

cabling within its structure.

At the same time, **KOMPAS Crae** allows a perfect customization of the final finish of the technical solution, as well as the integration of as many technological components as necessary: screens, connectivity, communication systems, etc.

Scope of the project:

- Engineering, development, manufacturing and assembly of the Multimedia Board for 21 users.
